Personal Statement

I am a mechatronics engineering student, highly motivated to develop my technical skills further. I work well in technical teams, enjoy leadership opportunities, and value learning from setbacks. Long term, I aim to move into engineering management, combining technical knowledge with leadership.

Education

Bachelor of Mechatronics engineering,
University of Canterbury
2024 – present

Ao Tawhiti Unlimited Discovery
2019 – 2024

Completed NCEA with merit endorsements in both levels 2 and 3. Despite having a poor math's foundation I have consistently pushed to improve. I also picked up level 3 chemistry 12 weeks before exams with only level 1 as prior knowledge.

Skills

Basic Machining Experience

Completed ENME199 gaining experience with lathes, mills, and fabrication process.

Python

Technical Report writing

CAD Basics

Undertaking an online course for essential CAD skills

Work Experience

Shift Manager, Supa Karts

2022 – present | Christchurch

- Four years of experience maintaining customer safety and ensuring efficiency in a busy environment.
- Promoted to Shift Manager after demonstrating comprehensive knowledge and leadership as track staff (late 2025).

Lifeguard, Waimakariri District Council

10/2024 – 02/2025 and 11/25–2/26

- Provided excellent customer service and maintained safe aquatic conditions.

Certificates

Pool Lifeguard Practicing Certificate

Achieved in late November of 2024

First aid qualification

Covering unit standards 6400, 6401, and 6402

Google AI Essentials Course
